## キーボード・レイアウト

100

easy

You have sneaked a peek (and you happen to have photographic memory) at the phone of a colleague.

He is a bit of a weeb, but you know he doesn't actually speak Japanese.

What could this mean on his phone?

All we got is this picture :

we noticed it is written in japanese ,  
and we tried to translate it ! and it gave us some **gibberish**

After some time we noticed that in the picture we are given a  
Keyboard , and we tried to type as the picture shows us in  
the keyboard in our phone , and it worked!
